Story

☆Narumi Luna's bad expression and punk attire cause everyone from children to adults to fear her. Because of this, she's a hopeless loner with zero friends. She was sure high school would be different... but she was wrong.

☆After a misunderstanding with a neighbor, Luna is kicked out of her apartment. With both her parents living overseas, Luna has nowhere to turn. Then the shows up— the super popular student council president and Prodigy, Natsushima Hikaru. It's decided that Luna will live with the Prodigies. But they turn out to be a bunch of liars! Their "leader" is secretly a jerk who orders Luna to be his fake girlfriend!
